

Hazardous Materials Carried by Airline Passengers and Crewmembers

In general, U.S. Department of Transportation (DOT) regulations prohibit passengers and crewmembers from carrying hazardous materials (dangerous goods) aboard commercial aircraft. The table below lists the exceptions that allow passengers and crewmembers to carry a limited amount of hazardous materials in carry-on and/or checked baggage. Though allowable by DOT regulations (see 49 CFR, section 175.10), some of the items listed here may, at times, be prohibited/limited in the aircraft cabin by Transportation Security Administration (TSA) rules (see www.tsa.gov). Individual airlines and other nations may also have more restrictive rules on what passengers can carry aboard the aircraft. See <http://www.faa.gov/go/packsafe> for additional guidance on hazmat in baggage.

Passenger Hazmat Exception	Allowed	Not Allowed	Regulatory Text 49 CFR 175.10(a)...
<p>Toiletry and medicinal articles including flammable and nonflammable aerosols when nozzles are protected</p> <p>Additional nonflammable aerosols that are not medicinal or toilet articles</p> <p><i>Note: Nonflammable aerosols are rare.</i></p>	<p>☑ Toiletry or medicinal articles that are hazardous materials such as rubbing alcohol, flammable perfume and colognes, nail polish and remover, and aerosols (hairspray, shaving cream, etc.)—<u>in carry-on* or checked baggage.</u></p>  <p>☑ Non-toiletry aerosols that contain nonflammable & non-toxic gas—<u>in checked baggage only.</u></p> 	<p>☒ Flammable aerosols that are not toiletry or medicinal articles or described in the other exceptions, such as aerosol laundry starch, insecticides, spray paint, cooking sprays, etc.</p> 	<p>(1) (i) Non-radioactive medicinal and toilet articles for personal use (including aerosols) carried in carry-on and checked baggage. Release devices on aerosols must be protected by a cap or other suitable means to prevent inadvertent release;</p> <p>(ii) Other aerosols in Div. 2.2 (nonflammable gas) with no subsidiary risk carried in checked baggage only. Release devices on aerosols must be protected by a cap or other suitable means to prevent inadvertent release; and</p> <p>(iii) The aggregate quantity of these hazardous materials carried by each person may not exceed 2 kg (70 ounces) by mass or 2 L (68 fluid ounces) by volume and the capacity of each container may not exceed 0.5 kg (18 ounces) by mass or 500 ml (17 fluid ounces) by volume.</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>*Liquids, gels, and aerosols in <u>carry-on baggage</u> are further limited to 100-ml (3.4 ounce) containers by TSA security checkpoint rules.</p> </div>

Passenger Hazmat Exception	Allowed	Not Allowed	Regulatory Text 49 CFR 175.10(a)...
<p>Matches and Lighters</p>	<p>✔ One packet of safety matches (regular matches) may be carried <u>on one's person</u> (e.g., in your pocket) or in <u>carry-on baggage</u>.</p>  <p>✔ One lighter (gas/butane or absorbed liquid/Zippo-style) may be carried <u>on one's person</u> or in <u>carry-on baggage</u>.</p>  <p>✔ Only lighters (including torch lighters) in a DOT-approved container may be in <u>checked baggage</u>.</p> 	<p>✘ Strike anywhere matches.</p>  <p>✘ Lighter refills, lighter fluid.</p>  <p>✘ The TSA forbids torch lighters in the aircraft cabin (carry-on).</p> 	<p>(2) One packet of safety matches or a lighter intended for use by an individual when carried on one's person or in carry-on baggage only. Lighter fuel, lighter refills, and lighters containing unabsorbed liquid fuel (other than liquefied gas) are not permitted on one's person or in carry-on or checked baggage.</p>
<p>Implanted medical devices</p> <p>Radioactive medicines injected or ingested</p>	<p>✔ Pacemakers or similar devices and radio-pharmaceuticals contained in the body.</p> 		<p>(3) Implanted medical devices in humans or animals that contain hazardous materials, such as a heart pacemaker containing Class 7 (radioactive) material or lithium batteries; and radio-pharmaceuticals that have been injected or ingested.</p>

Passenger Hazmat Exception	Allowed	Not Allowed	Regulatory Text 49 CFR 175.10(a)...
<p>Alcoholic beverages</p>	<p>☑ Up to 5 liters of alcoholic beverages with an alcohol content of more than 24% but not more than 70% in unopened retail packages <u>in carry-on* or checked baggage.</u></p> <div data-bbox="444 474 704 852" data-label="Image"> </div> <p data-bbox="407 932 756 1129"><i>Note: Alcoholic beverages containing 24% or less alcohol by volume (beer, wine, etc..) are not subject to the DOT hazardous materials regulations.*</i></p> <div data-bbox="448 1163 711 1514" data-label="Image"> </div>	<p>☒ Alcoholic beverages with more than 70% alcohol by volume (more than 140 Proof) including 95% grain alcohol and 151-proof rum.</p> <div data-bbox="808 464 1040 848" data-label="Image"> </div>	<p>(4) Alcoholic beverages containing:</p> <ul style="list-style-type: none"> (i) Not more than 24% alcohol by volume; or (ii) More than 24% and not more than 70% alcohol by volume when in unopened retail packagings not exceeding 5 liters (1.3 gallons) carried in carry-on or checked baggage, with a total net quantity per person of 5 liters (1.3) gallons for such beverages. <div data-bbox="1117 926 1503 1423" data-label="Text" style="border: 1px solid black; padding: 10px; background-color: #ffffcc;"> <p><i>* Quantities of alcohol placed in <u>carry-on baggage</u> prior to the passenger screening checkpoint are further limited by TSA security rules.</i></p> <p><i>Customs rules may also further restrict the amount of alcohol carried by passengers on international flights.</i></p> </div>
<p>Duty free perfume and cologne</p>	<p>☑ Flammable perfumes and colognes from the airport / airline duty free shops <u>carried on one's person or in carry-on baggage.</u></p> <div data-bbox="444 1793 748 1913" data-label="Image"> </div>		<p>(5) Perfumes and colognes purchased through duty-free sales and carried on one's person or in carry-on baggage.</p>

Passenger Hazmat Exception	Allowed	Not Allowed	Regulatory Text 49 CFR 175.10(a)...
<p>Curling iron (cordless)</p>	<p>☑ A curling iron with a flammable gas cartridge installed and safety cover in place.</p> 	<p>☒ Extra flammable gas cartridges.</p> 	<p>(6) Hair curlers (curling irons) containing a hydrocarbon gas such as butane, no more than one per person, in carry-on or checked baggage. The safety cover must be securely fitted over the heating element. Gas refills for such curlers are not permitted in carry-on or checked baggage.</p>
<p>Small mercury medical thermometer</p>	<p>☑ Small personal mercury thermometer in a protective case.</p>		<p>(7) A small medical or clinical mercury thermometer for personal use, when carried in a protective case in carry-on or checked baggage.</p>
<p>Small arms ammunition</p> <p><i>Note: For rules on carrying unloaded firearms in checked baggage, visit the TSA website: http://www.tsa.gov</i></p>	<p>☑ Small arms ammunition (up to 19.1 mm (.75 caliber) for rifle and pistol cartridges, any size shotgun shells) for personal use, when securely boxed and carried <u>in checked baggage only</u>.</p> 	<p>☒ Loose ammunition</p> <p>☒ Loaded firearms</p> <p>☒ Black powder</p> <p>☒ Primers</p> <p>☒ Percussion caps</p>	<p>(8) Small arms ammunition for personal use carried by a crewmember or passenger in checked baggage only, if securely packed in boxes or other packaging specifically designed to carry small amounts of ammunition. Ammunition clips and magazines must also be securely boxed. This paragraph does not apply to persons traveling under the provisions of 49 CFR 1544.219.</p>
<p>Self-defense spray</p>	<p>☑ One small (4-ounces or less) self-defense spray, protected from accidental activation, and carried <u>in checked baggage only</u>.*</p> 	<p>☒ Defense sprays containing more than 2% tear gas (CS, CN, etc.).</p> <p>☒ Defense sprays larger than 4 ounces.</p> 	<p>(9) One self-defense spray (see § 171.8 of this subchapter), not exceeding 118 mL (4 fluid ounces) by volume, that incorporates a positive means to prevent accidental discharge may be carried in checked baggage only.</p> <div data-bbox="1117 1675 1479 1860" style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>* Self-defense sprays are usually forbidden even in checked baggage outside the U.S.</p> </div>

Passenger Hazmat Exception	Allowed	Not Allowed	Regulatory Text 49 CFR 175.10(a)...
<p>Dry ice</p>	<p>☑ Up to 2.5 kg (5.5 lbs.) of dry ice per person in <u>carry-on or checked baggage</u> in a package that allows venting of carbon dioxide gas.</p> 	<p>☒ Dry ice in air-tight packages.</p>	<p>(10) Dry ice (carbon dioxide, solid), with the approval of the operator:</p> <p>(i) Quantities may not exceed 2.5 kg (5.5 pounds) per person when used to pack perishables not subject to the HMR. The package must permit the release of carbon dioxide gas; and</p> <p>(ii) When carried in checked baggage, each package is marked “DRY ICE” or “CARBON DIOXIDE, SOLID,” and marked with the net weight of dry ice or an indication the net weight is 2.5 kg (5.5 pounds) or less.</p>
<p>Self-inflating lifejacket</p>	<p>☑ A life jacket containing two nonflammable gas cartridges plus two spare cartridges in <u>carry-on or checked baggage</u>.</p> 		<p>(11) A self-inflating life jacket fitted with no more than two small gas cartridges (containing no hazardous material other than a Div. 2.2 gas) for inflation purposes plus no more than two spare cartridges. The lifejacket and spare cartridges may be carried in carry-on or checked baggage, with the approval of the aircraft operator.</p>
<p>Gas cylinders for mechanical limbs</p>	<p>☑ Nonflammable gas cylinders/cartridges in mechanical limbs plus spares in <u>checked or carry-on baggage</u>.</p> 		<p>(12) Small compressed gas cylinders of Division 2.2 (containing no hazardous material other than a Division 2.2 gas) worn by the passenger for the operation of mechanical limbs and, in carry-on and checked baggage, spare cylinders of a similar size for the same purpose in sufficient quantities to ensure an adequate supply for the duration of the journey.</p>

Passenger Hazmat Exception	Allowed	Not Allowed	Regulatory Text 49 CFR 175.10(a)...
<p>Mercury barometer or thermometer</p>	<p>☑ Larger mercury thermometers and barometers carried by government weather personnel <u>in carry-on baggage only</u>. Must be in leak-proof, mercury-proof packaging.</p> 		<p>(13) A mercury barometer or thermometer carried as carry-on baggage, by a representative of a government weather bureau or similar official agency, provided that individual advises the operator of the presence of the barometer or thermometer in his baggage. The barometer or thermometer must be packaged in a strong packaging having a sealed inner liner or bag of strong, leak proof and puncture-resistant material impervious to mercury, which will prevent the escape of mercury from the package in any position.</p>
<p>Heat-producing equipment (battery operated)</p>	<p>☑ Diving lamps and other battery-operated extreme heat producing equipment <u>in carry-on or checked baggage</u>. Energy source or a heat producing component must be disconnected or removed.</p> 		<p>(14) Electrically powered heat-producing articles (e.g., battery-operated equipment such as diving lamps and soldering equipment) as checked or carry-on baggage only and with the approval of the operator of the aircraft. The heat-producing component, the energy source, or other component (e.g., fuse) must be removed to prevent unintentional functioning during transport. Any battery that is removed must be protected against short circuit by placement in original retail packaging or by otherwise insulating terminals (e.g., by taping over exposed terminals or placing each battery in a separate plastic bag or protective pouch).</p>

Passenger Hazmat Exception	Allowed	Not Allowed	Regulatory Text 49 CFR 175.10(a)...
<p>Wheelchairs and mobility devices with <u>wet nonspillable</u> or <u>dry sealed batteries</u></p> <p><i>See separate entry for lithium ion battery</i></p>	<p>☑ Wheelchair or other battery powered mobility device equipped with a nonspillable battery <u>when carried as checked baggage.</u></p>  		<p>(15) A wheelchair or other battery-powered mobility aid equipped with a nonspillable battery or a dry sealed battery when carried as checked baggage, provided—</p> <p>(i) The battery conforms to the requirements of § 173.159a(d) of this subchapter for non-spillable batteries;</p> <p>(ii) The battery conforms to the requirements of § 172.102(c)(1), Special provision 130 of this subchapter for dry sealed batteries, as applicable;</p> <p>(iii) Visual inspection including removal of the battery, where necessary, reveals no obvious defects (removal of the battery from the housing should be performed by qualified airline personnel only);</p> <p>(iv) The battery is disconnected and the battery terminals are protected to prevent short circuits, unless the wheelchair or mobility aid design provides an effective means of preventing unintentional activation, and</p> <p>(A) Securely attached to the wheelchair or mobility aid;</p> <p>(B) Is removed and placed in a strong, rigid packaging marked “NONSPILLABLE BATTERY” (unless fully enclosed in a rigid housing that is properly marked);</p> <p>(C) Is removed and placed in a strong, rigid packaging marked with the words “not restricted” in accordance with paragraph (c)(2) of § 172.102(c)(1), Special provision 130, of this subchapter; or</p> <p>(D) Is handled in accordance with paragraph (a)(16)(iv) of this section.</p>
