Cruising Race Chart A

February 2019

Race Course

Start sailing north between the red ball and the orange mast on the committee boat. Round Horse Island, Balance Rock Island, and Bobcat Island, taking all islands to port. Finish between the yellow ball and the orange mast on the committee boat.

Note: Bobcat is the most difficult to identify. It's the largest island in that area and has vegetation on top, since it's never submerged.

When approaching Bobcat from the north, it will be difficult to see until you're close. If you set a course toward the cell towers near the dam, the island will be to the right. It's in the same bay as the 10-lane launch ramp.
